QUEASY DROPS Custom Packaging Program now available

Specialty Retailers and Distributors can tailor packaging to their consumers.

Los Angeles, CA, March 30th, 2007 – Three Lollies, LLC has announced that it will offer **custom packaging** to specialty retailers and distributors to address customer requests.

“We’ve been getting a surprising number of questions regarding custom logo’d packaging. In addition we’ve gotten inquiries regarding packaging geared to event giveaways” said Marine Sale Representative Jim McGee.

“The requests have been as simple as adding a logo to our current box design, and as detailed as changing the colors on the label to match a client’s corporate logo. We’ve also gotten a request from a large fishing tournament promoter to include the event logo on a custom blister pack.”

To respond to these demands Three Lollies is introducing its **Custom Packaging Program**. A minimum order of 20,000 units is required to qualify. Pricing is based on a one time cost for the artwork and a fixed price for each production run thereafter. The Custom Packaging Program is available for both **Queasy Drops** and **Queasy Pop Kids**.

About Queasy Drops and Queasy Pop Kids

Queasy Drops and Queasy Pop Kids provide non-drowsy, drug free products that ease seasickness in as little as 10 minutes. Just suck on them like a cough drop (Queasy Drops) or a lollipop (Queasy Pop Kids).

About Three Lollies, LLC

Three Lollies has a full line of products used to relieve nausea. Originally developed as Peggie Pops and Queasy Drops, our products have been used for seven years by cancer patients to relieve the nausea associated with chemotherapy and by pregnant women to relieve the nausea from morning sickness.

Previously available only through oncologists and obstetricians, our products are now available through Marine Retailers and Drug Stores for the treatment of seasickness.
